

Model 2503

COFFEE - ESSENCE FINISHER

Coffee

- ☑ Industry-tested and experience-proven solution to coffee processing needs.
- ☑ Handles up to 4 tons per hour of hot ground coffee blend.
- ☑ Screen size range gives fine control of solids content and liquid extraction.
- ☑ Stainless steel construction & sanitary design endures harshest product conditions.

Brown Paddle Finisher Model 2503

HOW IT WORKS:

Using a straightforward yet robust design, the **Model 2503 Series 2507 Screw Finisher** efficiently separates product into solid and liquid component streams at optimum yield.

- Product enters a wide-throat chute and is conveyed into the screen cage assembly by the leading flight of the feed screw
- A double-flight close-tolerance feed screw conveys the product along the cage while applying pressure with a pneumatic-controlled valve
- Juice and filtered liquids pass through the screens and fall into the drain pan below to be pumped from the finisher
- Dried solids are retained by the screens and push past the valve to an exit chute for easy collection

TECHNICAL INFORMATION:

SPECIFICATIONS	
Throughput/Capacity	Up to 150 GPM
Dimensions/Weight	85 in L x 30 in W x 47 in H / 1900 lbs 216 cm L x 76 cm W x 119 cm H / 862 kg
ELECTRICAL	
Main Motor	5HP - 30HP
Power Input	230-460-380 VAC
Power Phase/Power Hz	3 / 50-60
Total Current Draw	(15.2-104) (7.6-52) (9.7-66)
WATER/AIR	
Process Water	0 GPM
CIP - Rotary Wash	55 GPM
Air	0.4 CFM

Category	Product	Application
Bean	Coffee	Essence
Fish	Fish Protein	Dried Protein
Fruit	Citrus	Juice
Fruit	Pineapple	Juice
Fruit	Apple	Juice/Sauce
Fruit	Strawberry	Juice/Puree
Plant	Aloe Vera	Juice/Gel
Vegetable	Tomato	Juice/Paste
